

VivaCollabo: All-in-One Collaboration Platform

Business email server, TeamChat, real-time document collaboration, video calls, ChatGPT integration, and more—all in one app.

Email, messaging, conferencing, and file management in a single, unified solution.

Core Features

VivaCollabo integrates these essential tools for modern collaboration, empowering your team with seamless communication and productivity.

Email

Conferences

Calendar

Dashboard

TeamChat

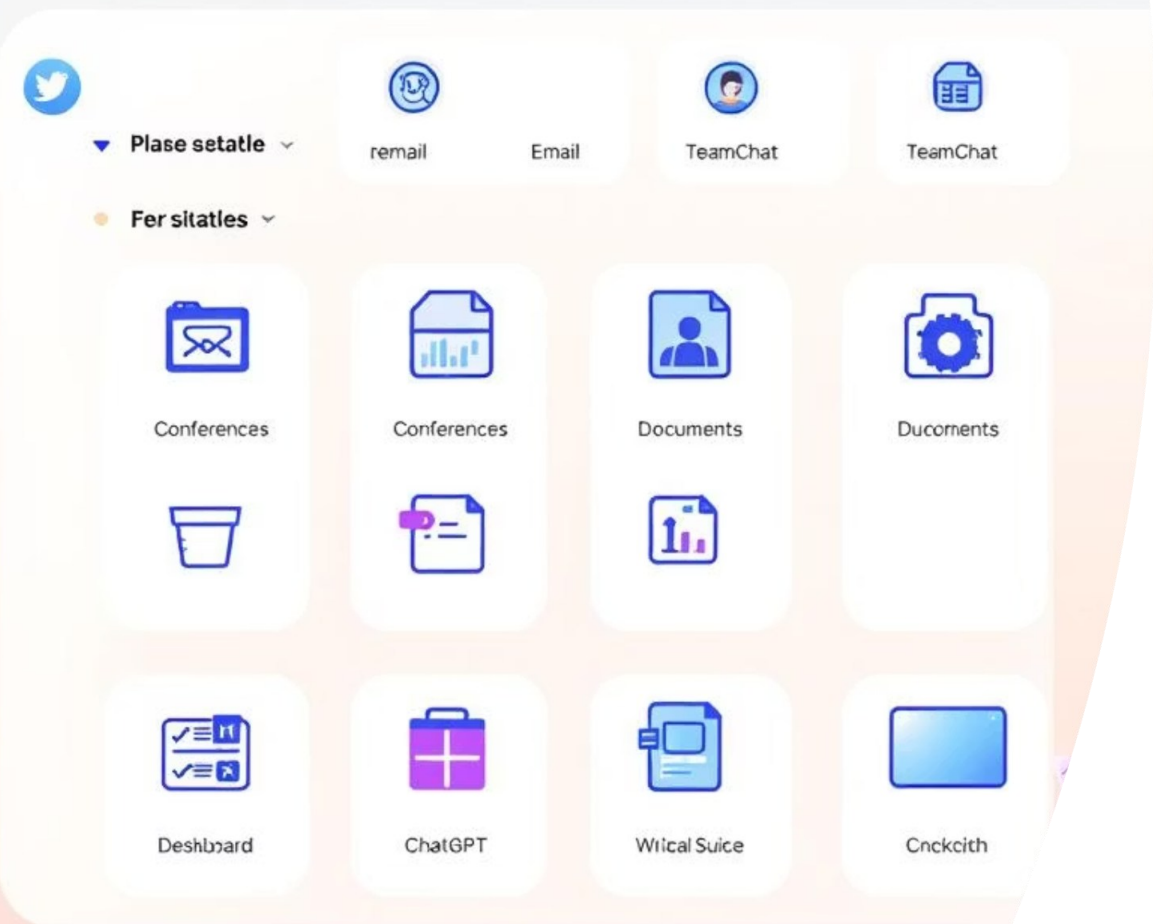

Files

Documents

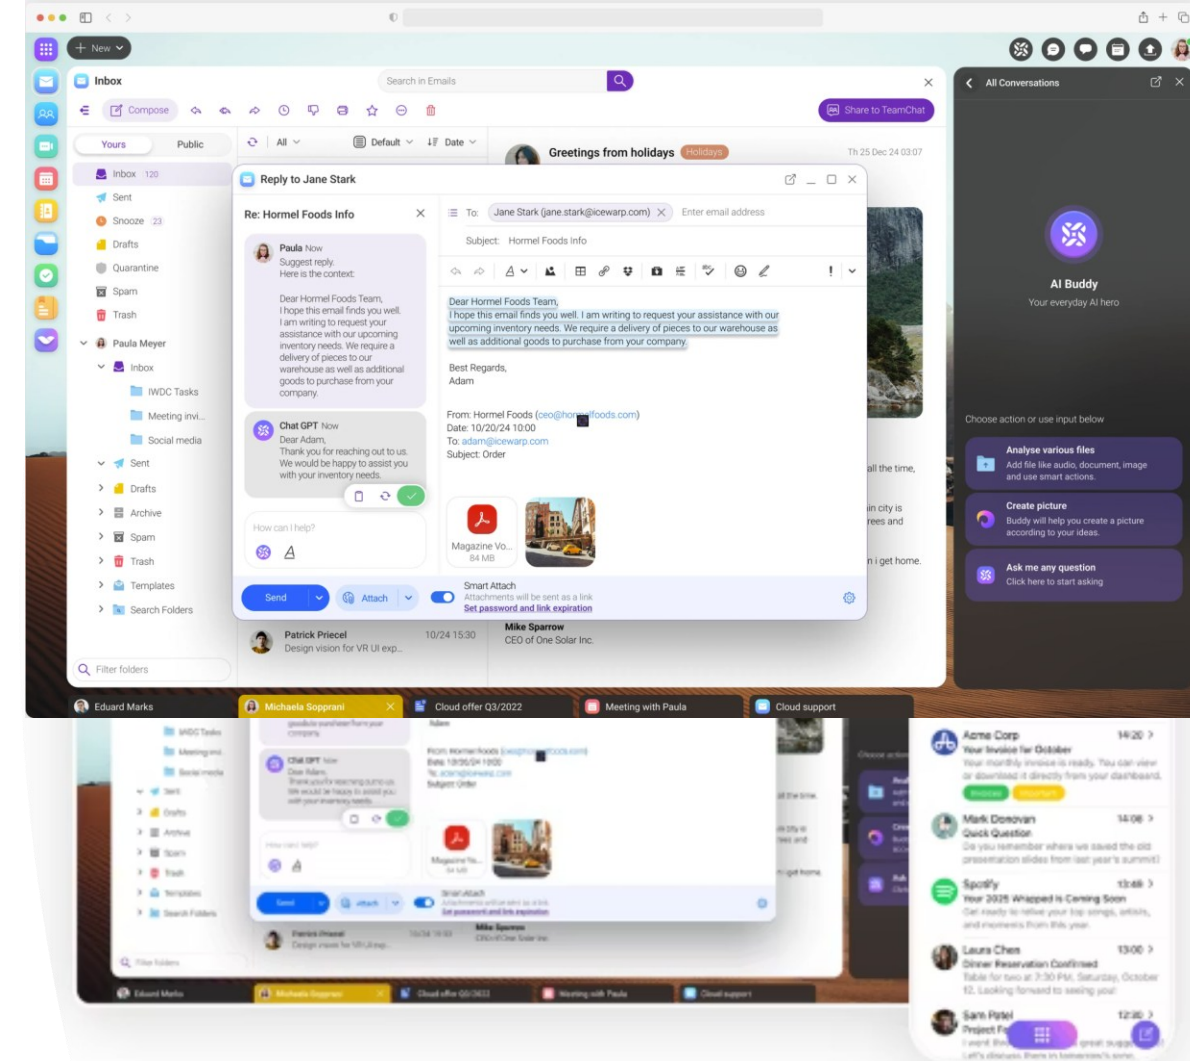

ChatGPT

Email and Collaboration in a Single Package

Seamlessly integrate email with collaboration tools. Send and receive messages, reply, format messages, and share attachments in just a few clicks. Speed up your work with ChatGPT-powered composition and smart templates to draft emails faster.

Most productivity with ChatGPT

Speed up your email conversations with ChatGPT. Get suggestions, summarize threads, highlight key format text, and translate—right from your inbox.

Work across apps in one interface

Switch between apps easily—write an email, chat in TeamChat, or review documents. Pick up right where you left off on your desktop or iOS. Android coming in 2026.

Send large files with Smart Attach

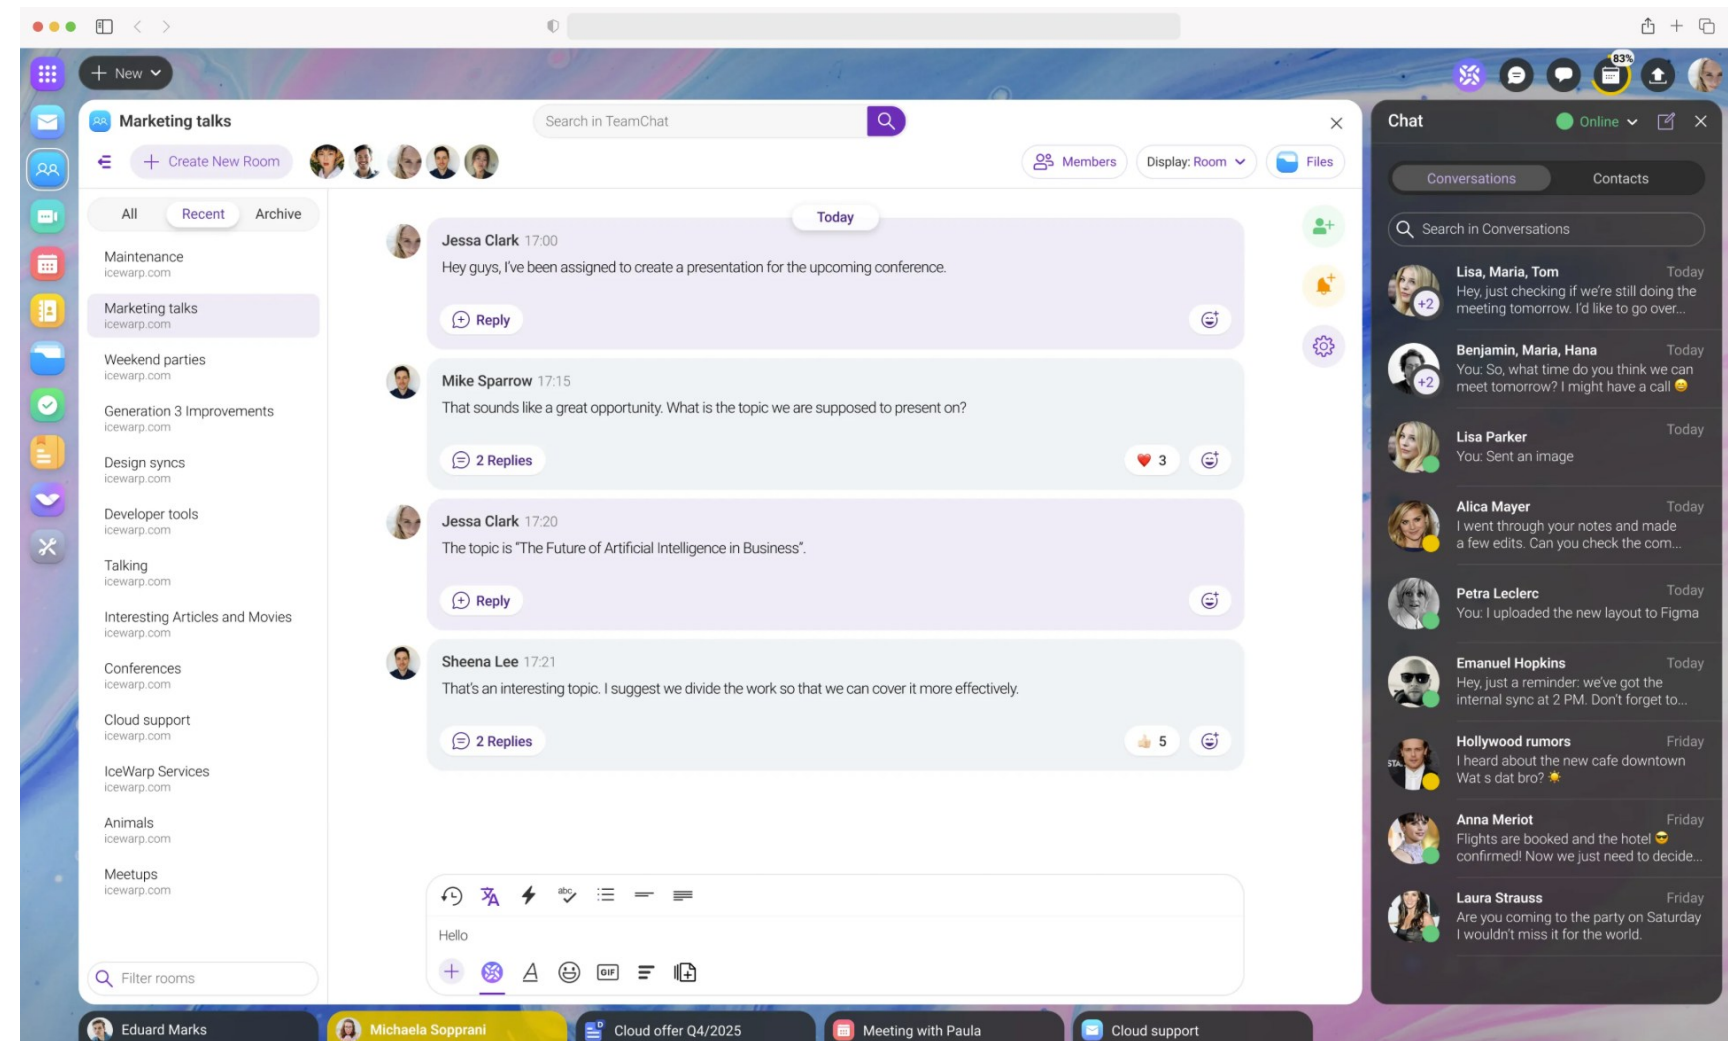

Smart Attach uploads large files, such as videos, to the cloud and adds a download link to your email—so they're delivered quickly without clogging inboxes.

Calendar timeline in email

Find and see if you can accept a meeting from the calendar timeline in your inbox.

Team Chat – Stay Aligned Your Team.

Work together in TeamChat or Chat, share files, mention colleagues, and send inbox messages directly to your team spaces.

Conferences – Meet and Interact in Real Time

Collaborate in video or audio meetings directly in VivaCollabo. Record calls, use Webinar Mode, invite external guests and engage with live chat, reactions, and real-time document editing.

Host meetings from your desktop or mobile device. Connect your video or audio, share your screen, record sessions, and invite up to 1,000 participants. Engage your audience with live chat, reactions, polls, and real-time document editing – or switch to Webinar Mode to present to large audiences with Q&A, live responses, and interactive polls.

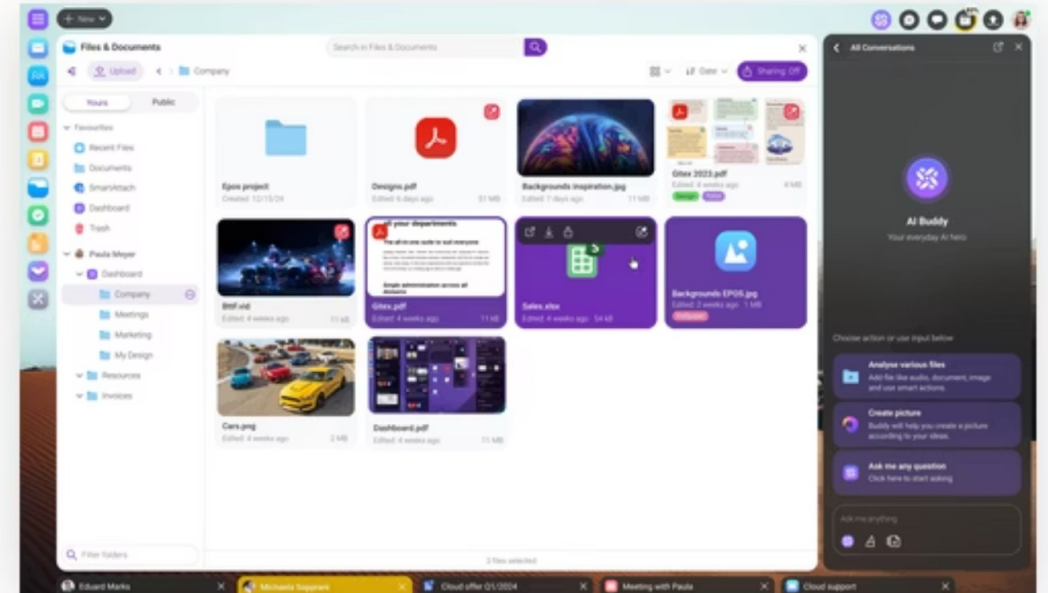

Files – Organized, Secure, Accessible – 2TB Per User

Store files securely in folders from anywhere—through desktop, mobile, or web. Easy sharing with individuals, groups, or guests. Stay in control with transparent, real-time access logs. Define access permissions for shared files or define an expiration date. See who accessed your files and when. Organize files in folders and keep files in sync across all your devices.

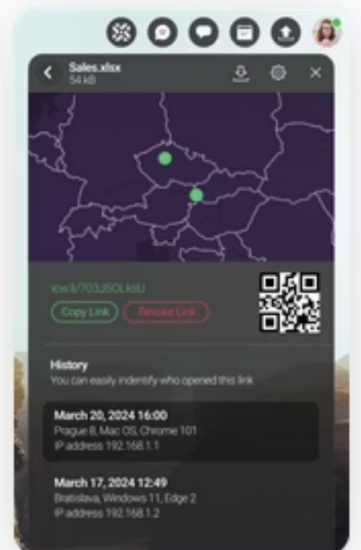

Files – organized, secure, accessible

Store files directly in IceWarp and access them from anywhere—through the web client, mobile app, or synced with your desktop client for offline use. Easy sharing with individuals, groups, or guests.

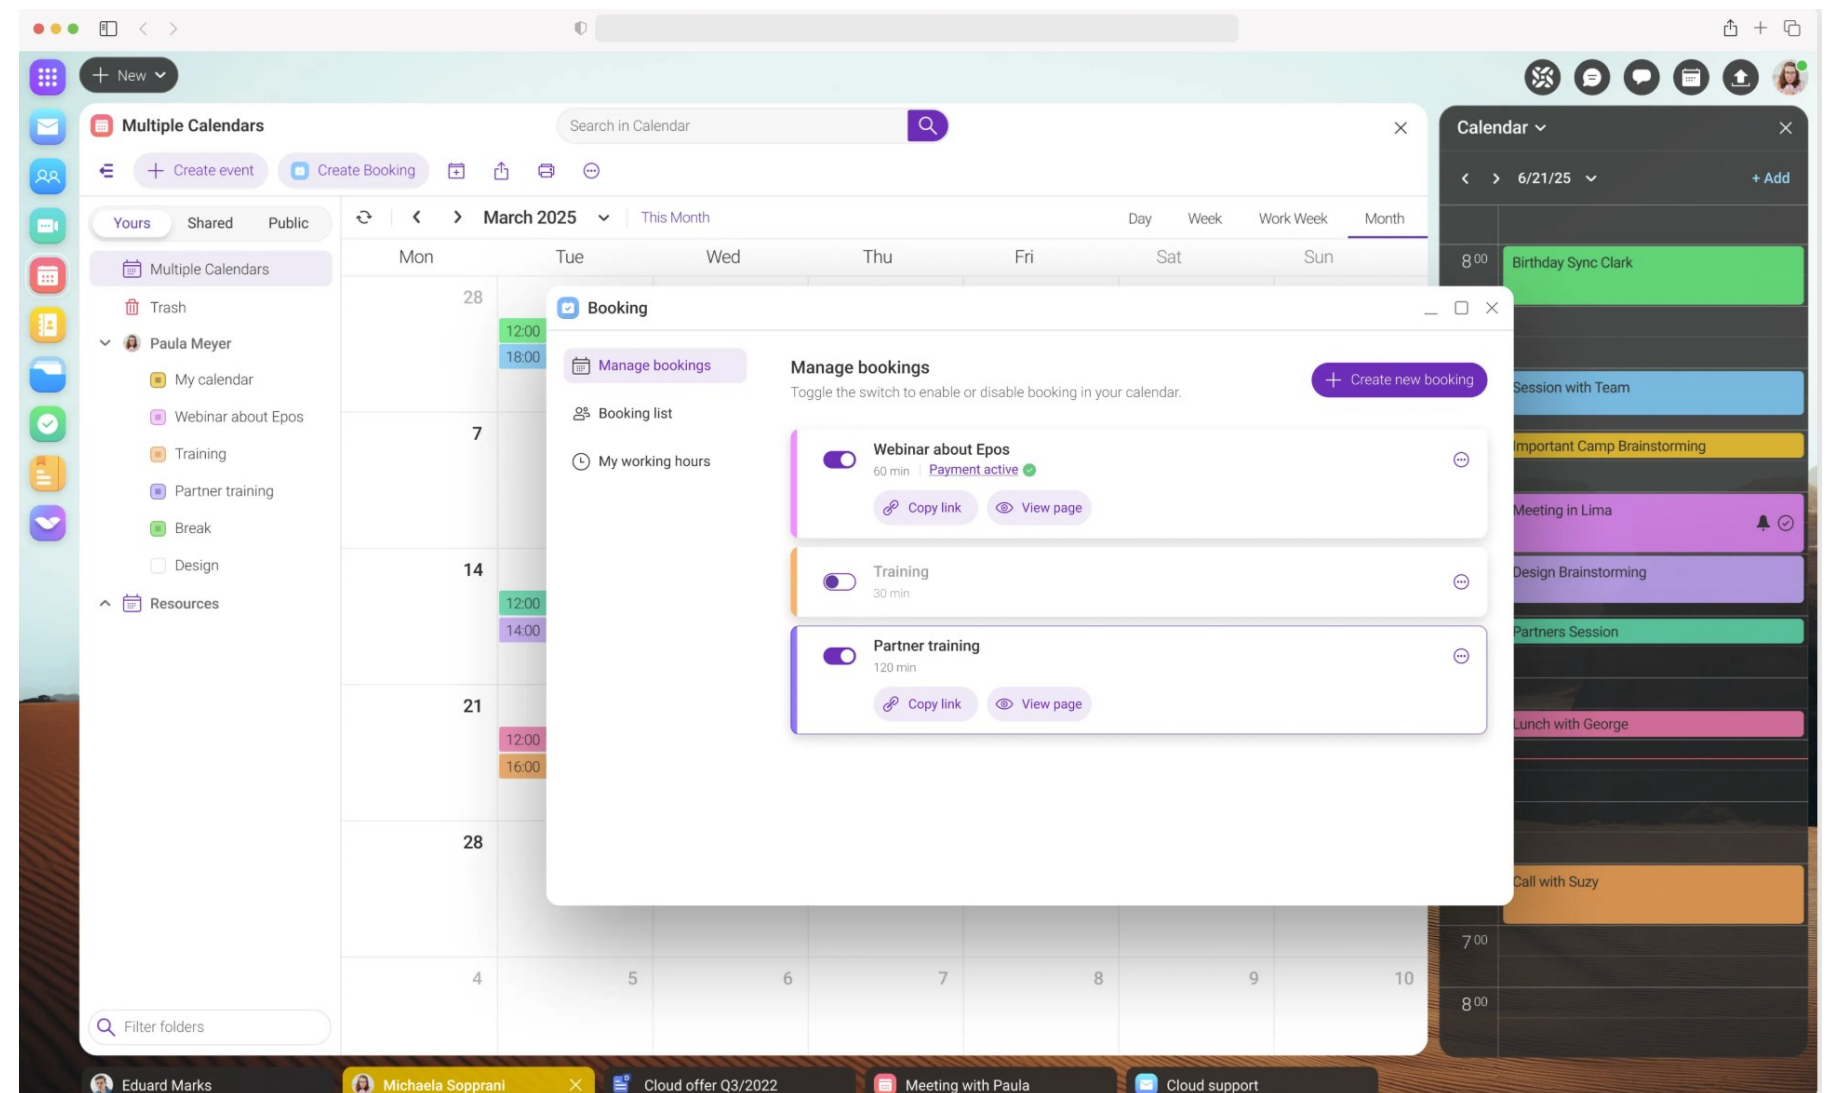

Share files securely

Stay in control with transparent, real-time tracking to ensure privacy and security. Set a password for shared links or define an expiration date. See who accessed your files, with their IP address and approximate location on a map.

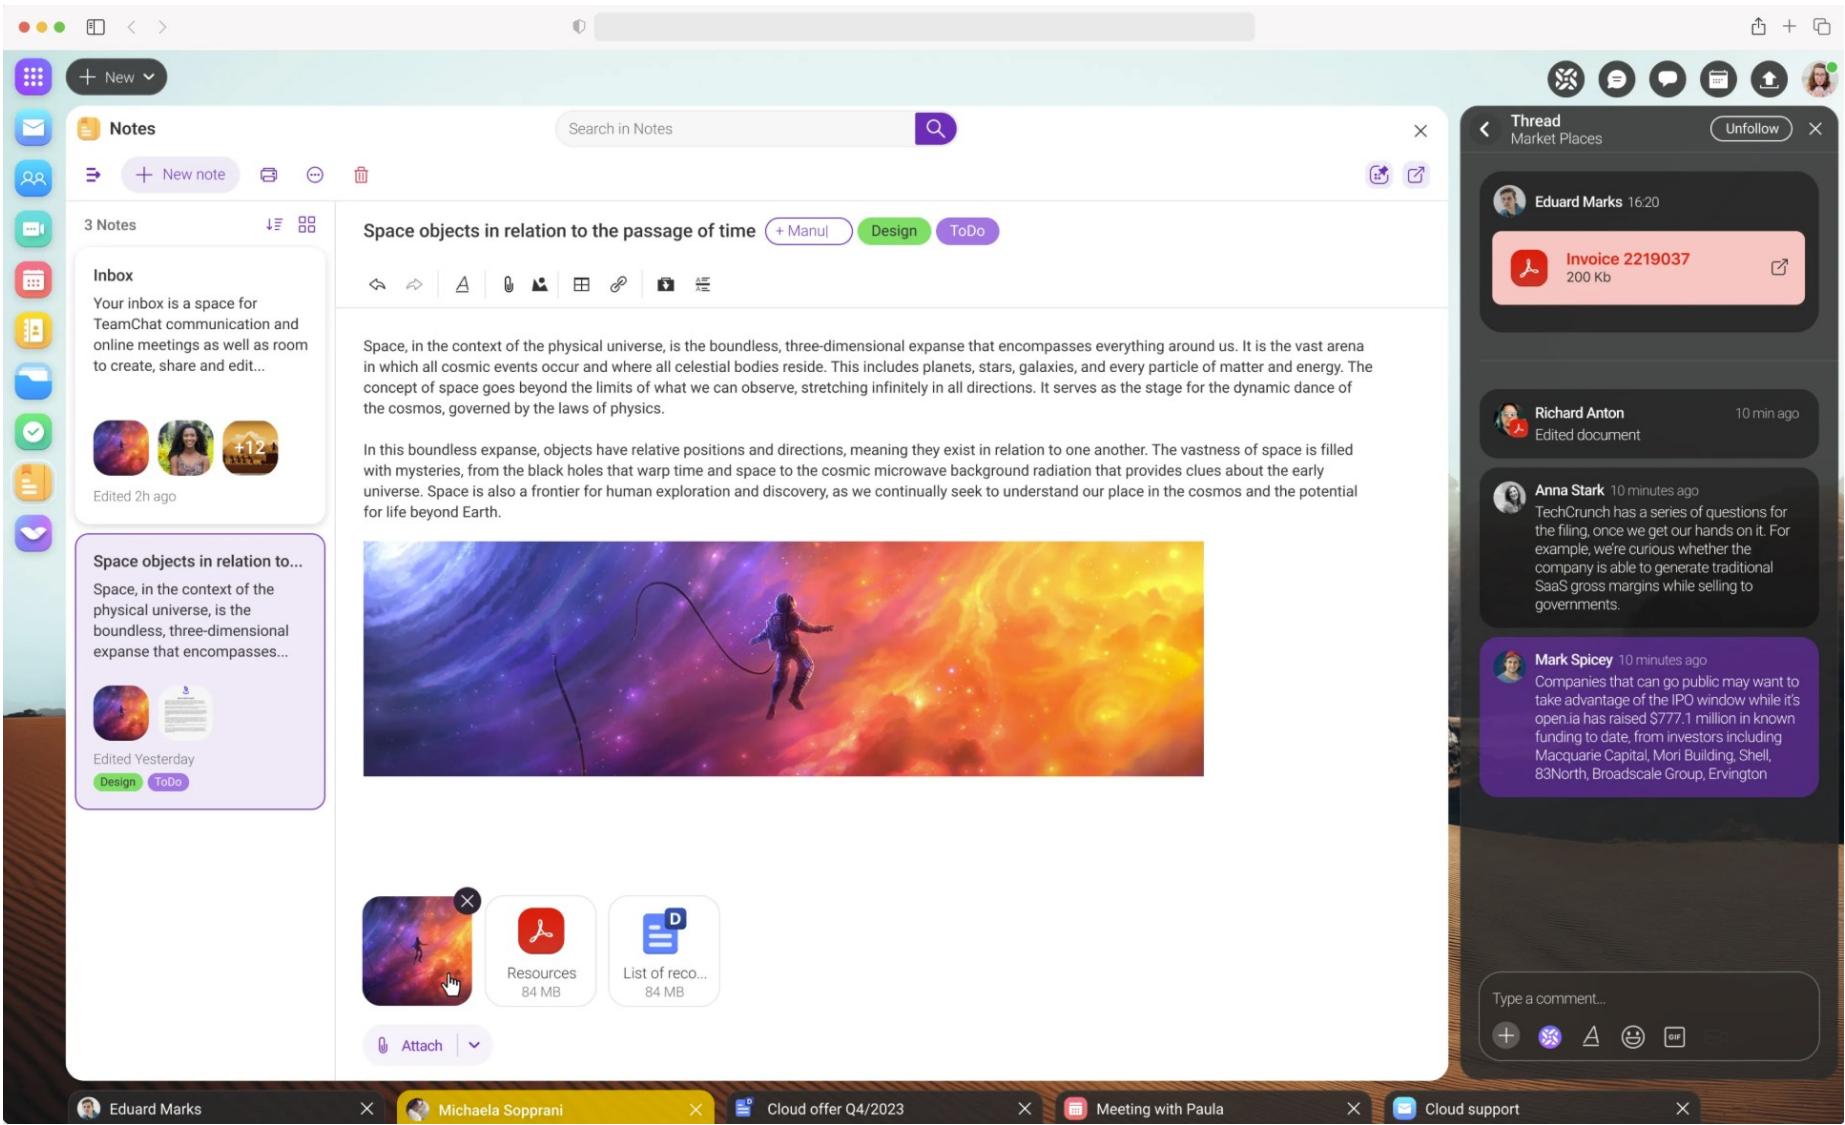

Calender – Meet and Interact in Real Time

Keep your workday organized. Plan ahead,
manage tasks, and schedule meetings with ease.
Share your availability through Booking and
confirm appointments in seconds

Notes –

Capture ideas and share them instantly. Keep track of important thoughts and tasks, synced across all your devices.

WEBINAR MODE • REAL-TIME COLLABORATION

Turn Every Meeting Into a Live Event

Broadcast webinars to large audiences, keep them engaged with live polls and Q&A, and co-create documents in real time—all in one place.

Up to 1,000

live participants in every webinar session

Broadcast at Scale

Stream webinars and live events to large audiences with dedicated Webinar Mode.

Engage in Real Time

Spark participation with live polls, Q&A, reactions, and instant responses.

Create Together

Co-edit documents, spreadsheets, and slides live during every session.

Why Choose VivaCollabo?

Complete Integration

All essential tools in one platform, no need for multiple subscriptions.

Enterprise Security

Your data stays under your control with advanced encryption and compliance features.

Seamless Collaboration

Real-time communication and document editing keep teams connected and productive.

Cost Effective

Predictable pricing with lower total cost of ownership than managing multiple tools.
